

Next generation of smart parking & mobile payments

Increasing customer's
convenience at every step

Make a significant
change from paper to
a digital ticket

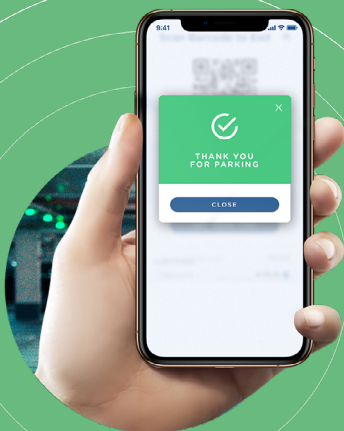

Analyze, control
and manage parking
operations

Fully automate
the payment process

Eliminate lines at the
parking barrier
and ticket machine

Automation

Automate all parking operations and:

- ✓ reduce cost of hiring parking staff,
- ✓ eliminate the expense of ticket machine maintenance,
- ✓ limit the risk of payment errors.

Data transparency

Gain complete data transparency by having access to:

- ✓ comprehensive management panel,
- ✓ extensive financial reports,
- ✓ real-time flow of data.

Convenience

Take full control of your space and upgrade customer experience:

- ✓ eliminate lines at the parking barrier and ticket machine,
- ✓ automatically collect parking payments during departure,
- ✓ exceed expectations by offering a variety of payment options,
- ✓ keep track of all transactions in one system.

Digital ticket is the future of transport

We are happy that we no longer have to spend extra money on paper tickets. Our hotel has become more sustainable because we have limited the generation of waste – previously we used about 100 paper tickets a day.

ANNA LOGINOVA

Guest Operation Manager,
Hampton by Hilton Warsaw Mokotow

For the greater good

Smart Parking contributes to healthier & more sustainable city living by reducing the carbon footprint, paper consumption and exhaust fumes.

No tickets means no lines, which contributes to less pollution.

Go digital and save up to

36 500

paper tickets every year

— Digital ticket is the future of transport

Manage an entire parking lot **from the comfort of your office desk.**

Parking management does not have to be complicated. We have created an intuitive, dynamic and comprehensive platform to fulfill the needs of the most sophisticated customers.

With our desktop manager you will gain access to:

- ✓ real-time parking occupancy levels,
- ✓ in-depth data on current and historical parking lot payment details,
- ✓ remote management of the parking spaces availability,
- ✓ comprehensive reports on the parking operations,
- ✓ an option of defining specific user groups.

— One solution that benefits all

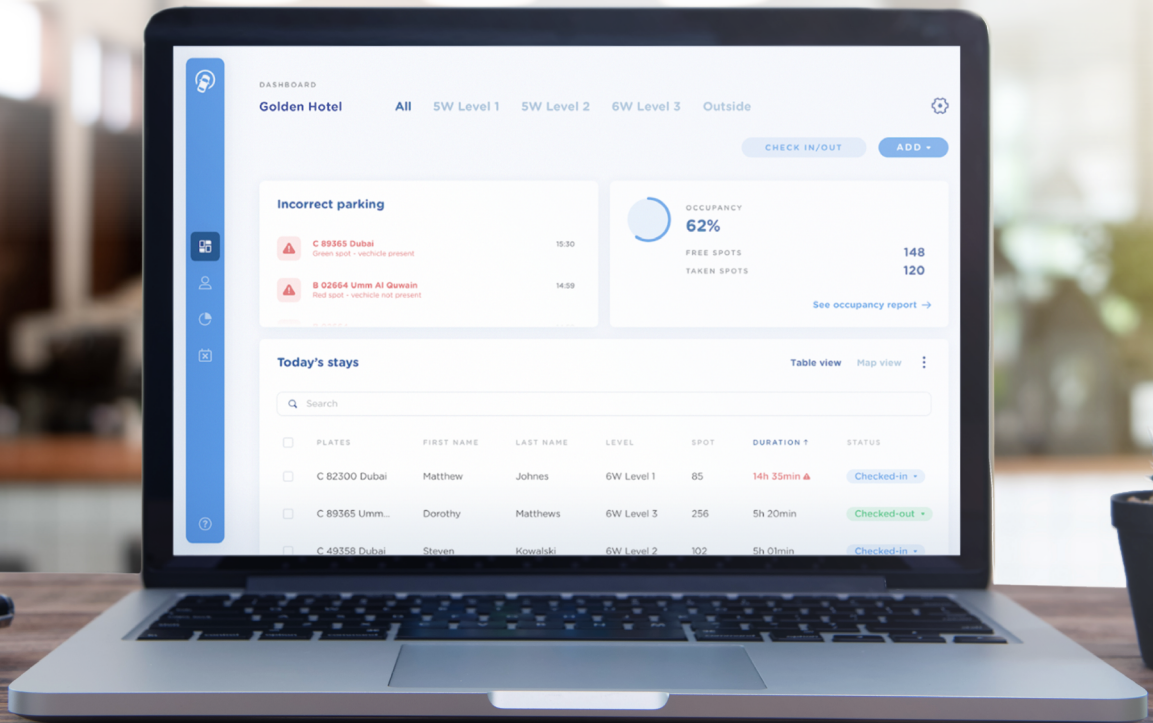

Building Owner is taking advantage of

- ✓ optimization of parking space,
- ✓ automation of processes,
- ✓ analysis of data.

Drivers get to feel

- ✓ improved satisfaction,
- ✓ increased security,
- ✓ seamless service.

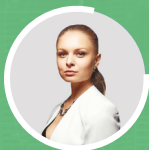

— Our mission

Our mission is to create convenient, sustainable & digital parking solutions with businesses for citizens to improve everyone's quality of life.

— What sets us apart?

We have been operating globally since 2015, with offices in Poland, Dubai and Bahrain. We have our own software house and develop products based on clients' expectations. We offer comprehensive marketing services for ongoing projects, strengthening the client's brand. We provide a dedicated account manager for business clients and customer support for individual clients. We support smart cities and CSR concepts and create solutions for people with disabilities.
